1	Please switch the position of the last paragraph (MO dye is an acid azo dye...) in the introduction with the last-two paragraph (In this study, we report the synthesis...).	Done. In Introduction (Part 1), paragraphs 4 switched with paragraph 3.
2	Please identify the structure of each of the crystal in the diffractogram and give each plane in the diffractogram the corresponding indices.	Done. In Results and discussion, Part 3.1, first paragraph did mentioned about crystal structure and planes were indices in Fig. 3.
