

| Elemental composition | (wt. %)      |
|-----------------------|--------------|
| Carbon                | 82.38        |
| Hydrogen              | 10.69        |
| Oxygen                | 6.87         |
| Nitrogen              | 0.06         |
| <b>Heating Value</b>  | <b>MJ/kg</b> |
| HHV                   | 32.19        |

Elemental composition of PDO through CHN Method
